Backflow Basics

Hands-On & Classroom Learning for Water Professionals

York Library – 11/4/25 @ 8:00AM-3:30PM

6.0 BLWSO/6.0 DEP TCHs (pending)

Training Overview

Join Tom's Water Solutions & New England Backflow for Backflow Basics, a session focusing on everything water operators need to know about backflow, cross-connection control, and even some hands-on practice. We will discuss backflow prevention, specific devices, real-world examples, and cross-connection control programs.

The class will have a classroom component and finish with some basic hands-on learning with backflow devices. **Register today!**

Agenda & Topics

Backflow prevention & devices

Basics of fire protection backflow & use cases

Real world examples & cross connection control

Hands-on learning with devices, Q&A

Series Registration Fees

\$135.00/person (includes light breakfast & lunch)

Certificates will be sent after training
